Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The response received 12/01/09 has been placed in the file and was considered by the examiner. This application contains pending claims 7-14. Claims 1-6 have been canceled.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/01/09 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites "whereby said mounting and said using (in combination?) controls all the lamps ...in a common direction" and it is unclear what structure or device to

control or perform all the lamps in the plurality of lamps to point in a common direction as recited. In other words, it is unclear what specific structure/device to carry on or perform the step method as recited. Note that the use of a graduated scale is to adjust a base portion of each lamp, not "controls all the lamps in a plurality of lamps to point in a common direction"

It also appears that the use of whereby" clause presents in the claim which sets forth the desired results or operational/functional intended of the method but no specific structures recited to perform that results/operational purpose thus the claim that is failed to particular point out and distinctively claim the apparatus but only allude to the merit of purposes.

Claim 7 also recites "controlling the group of lamps to move commonly as though each lamp was mounted on trusses extending in the same direction"; and Claim 10 recites "controlling different lamps in the group of lamps to move commonly as though each of the plurality of lamps was mounted oriented on a truss that extended in the same direction" are also rejected for the same reason set forth above. Specifically, it is unclear what structure or device to control or perform the group of lamps or different lamps in the group of lamps to move commonly based as though each lamp was mounted on trusses extending in the same direction or each of the plurality of lamps was mounted oriented on a truss that extended in the same direction. In other words, it is unclear what specific structure/device to carry or perform the step methods as recited in claims 7 and 10. One having ordinary skill in the art would have to perform undue experimentation to make/use the claimed features.

Claims 7 and 10 each recites "the group of lamps". This limitation lacks antecedent basis.

Response to Arguments

Applicant's response filed 12/09/09 with an amendment to claims 7 and 10 and believes that the amendment will obviate the 112 rejection. However, upon further consideration, the claims are still rejected under 112 second paragraphs for the reason as set forth in the office action.

This action is made NON-FINAL.
